## Identification Data

October 14, 2021

LAB GROWN DIAMOND Certificate No: 312690032

Gemprint is the unique optical identification fingerprint of your lab grown diamond. Register your lab grown diamond fingerprint at www.Gemprint.com and receive insurance discounts up to 10%.

## Laser Inscription

Girdle laser inscribed: GCAL LG312690032 LAB GROWN PAT, 6,858,078 This illustration depicts the approximate appearance of the inscriptions

certificate, ONLY available at an SCS GLOBAL SERVICES

G

None

\*Comments: This laboratory grown diamond was created by the CVD (Chemical Vapor Deposition) method, and has the same chemical, physical, and optical properties as a mined diamond. This diamond is Type IIa, which means it is devoid of nitrogen impurities. As Grown - No evidence of post-growth treatment was detected.

Photomicrographs:

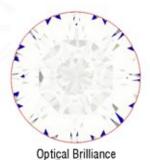

Actual images of the crown (top) and pavilion (bottom) of this diamond photographed at magnifications up to 10x.

## Light Performance Profile

Optical Brilliance Analysis: Brilliance is the overall return of light to the viewer. The brilliance image is a representation of (a) white areas of light return, or brilliance, and (b) dark-blue areas of light loss.

Optical Symmetry Analysis: The colored areas of the symmetry image are indications of light handling ability, giving a visual representation of proportions and facet alignment.

Excellent

Optical Symmetry

Proportion Diagram:

The proportion diagram illustrates the actual dimensions as recorded by optical scanning technology.
